

FY2021 JEPIC Online Seminar for EDL

JEPIC has been conducting bilateral seminar programs with electric utilities in ASEAN Countries with strong support from electric power companies in Japan. The programs' purpose is to strengthen ASEAN Countries' business infrastructure such as basic and expertise technologies, management method and human resources development.

As one of the programs, JEPIC held local seminars for Electricite Du Laos (EDL) & Electricite Du Cambodge (EDC) together from FY2006 for 5 years. Subsequently, JEPIC has held local seminars for EDL and EDC respectively from FY2011.

In cooperation with Kansai Electric Power Company Group, JEPIC and EDL held the online seminar in February 2022, which outlines are shown below;

- Data: 28th February, 2022
- Tool: Webex Meeting
- Theme of seminar: Design and Development of Energy Management System for Load Dispatching Center
- Mission Member: 3 experts from Kansai Electric Power Co., Inc.
6 experts from Kansai Transmission and Distribution, Inc.

40 participants from EDL etc. attended the seminar. We made a lot of fruitful discussion.
